

Forced remarks: a force remark is a screen linked to a sale item. On ordering screen, the screen selected as a forced remark appears automatically after punching the item. It allows you to select only ONE item from the screen and then it close automatically.

Sales item#4 - AVOCADO TOAST			
Forced modes	Recipe	Bar interface	POS In
Configuration	Ordering options	Links	Options
Forced remarks			
Remark#1	GYO A.I. SMOOTHIE (32)	---	<input type="checkbox"/> Mod
Remark#2	Nul	---	<input type="checkbox"/> Mod
Remark#3	Nul	---	<input type="checkbox"/> Mod
Remark#4	Nul	---	<input type="checkbox"/> Mod
Remark#5	Nul	---	<input type="checkbox"/> Mod

Next screen: Will also appear automatically after punching the item. You can select as many choices as you want. It will also stay open as long as you don't open another regular screen. It acts like regular item screen.

2. Create your choice

- *Point of sales control/sales/sales items*

* We usually go to the last screens to create remarks. Keep the first screens for regular sales items.

- Select an empty box
- When you create your remarks/choices, select "remarks by quantity" as item type.
- Make sure your choices have a regular price
